

PRO FELLPFLEGE

Treatment using effective micro-organisms

For cleaning and treating fur and paws. Particularly effective against itching, irritation and insect infestations.

The effective microorganisms in Pro Fur Care get rid of problem germs and ensure a positive, natural environment. They occupy all services, leaving no space for bad germs. Pro Fur Care can also be used to clean scratching posts, cages, comforters, blankets and other pet accessories.

- Suitable for sensitive pets
- 100 % natural ingredients
- Free from artificial colourings, attractants, aromas, preservatives, alcohol and formaldehyde

Application

Spray the undiluted product onto the fur and rub in by hand. Contact with human skin is harmless, just as is Pro Fur Care when licked off by dogs and cats.

Pro Fur Care can also be used (ratio 1:10) to bathe dogs and cats.

Ingredients:

Organic sugar cane molasses*), fermented herbal extract*), various strains of effective micro-organisms
*) product of organic farming

Best before

Once the bottle has been opened, use within six months. Where the odour changes drastically, do not continue usage. Pro Fur Care has a sweet-sour odour.

Instructions

White fur can - due to minimal parts of sugar-cane molasses in the product - turn slightly yellowish. This is completely harmless.

Store in a cool and dark location. Not intended for consumption, store out of the reach of children. Avoid contact with mucous membranes and eyes.

Certifications

Our company (Provital GmbH) is certified organic by BCS Öko Garantie GmbH (DE-ÖKO-001) and certified by TÜV SÜD Management Service GmbH according to ISO-9001.
